or Wednesdays, Aug 6, 13 6:30-8:30

Wow! I can't believe it's not done by hand. And yes, the edges are needle-turned and not left raw. You don't need anything special; your machine will work just fine. You just need a little knowledge. This is Pipers' own method, and soon to be published. **Notions tool kit required.*

Sign up for our email list! Things move fast at Piper's, and we want to be sure you have the latest information. We can also send your class schedule via email, if you'd like to help us stay green.

We would like to announce the upcoming arrival (early October) of the latest Piper girl. We'll keep you posted and have a big celebration for her arrival. Finally Jeannette has something to do with all of her pink baby things!
